Kumano Kodo 2018

Introduction Like many Americans who walk a Camino, I requested my first credencial from American Pilgrims on the Camino. I didn't become a member until I returned home and was searching for a way to stay connected with the Camino. It is a wonderful way to make new friends (we all like to talk about the Camino) and I feel energized being among pilgrims. If you have never attended a Gathering, it's an exciting, inspirational, and meaningful experience and I wouldn't miss it. I am thankful for what American Pilgrims has provided for me and I look forward to serving the community of pilgrims and giving back as a member of the board.
