**Introduction** With my first Camino in 2003, I never thought that the Caminos de Santiago would play such a big role in my life. I try to make it back at least once a year! For me, the Camino is about taking the time for prayer and meditation and experiencing the joy of walking day after day. I love American Pilgrims on the Camino because it lets me share my the joy of pilgrimage and experiences with other who have walked or will walk in the future. I believe my role as board member is the best possible way to support the “enduring traditions of the Camino”.
